# EXCLUSIVE INTERVIEW

## iMusthav's Celebrity Room: Artist Interview

The Celebrity Room is one of our magazine's columns where we interview contemporary celebrities from around the world and let us know a little bit about some interesting people.

# Isa Nielsen

**Isa Nielsen** is a professional vocalist, guitarist, and songwriter. She joined the Idols TV show on TV and a Heavy Metal band that played on MTV Specials, MTV VMB AWARDS, big festivals, and interviewed at multiple TV shows.

Then She did many concerts with her solo career and opened the Best of Blues Festival for Tom Morello's headliner ( Rage Against The Machine) and John 5 ( Marilyn Manson / Rob Zombie ). This was a tour with more than **40,000** audiences. She was reposted on Guns N' ' Roses Facebook and Instagram.

**iMh** Today, we are glad to interview this interesting person and she will share her personal beauty tips too!

**iMh** Where are you from?

**1** I was born in Denmark and moved to Brazil when I was 2 years old.

**iMh** Why did your family move to Brazil?

**2** My parents got divorced, and my mother that is Brazilian wanted to move back to Brasil and bring me together.

**iMh** Cultural comparison of Denmark and Brazil?

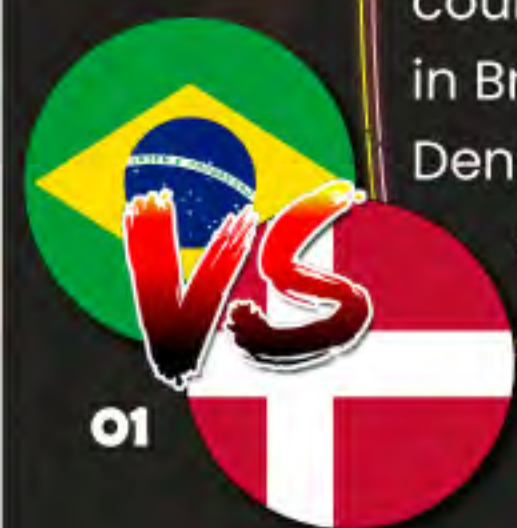

**3** It's very different, and I like both countries very much. I think music in Brazil is much richer than in Denmark, but in Denmark is much safer than in Brazil. I like both.

In terms of **living life**, Brazil is different from Denmark in the following points, which I think are quite interesting.

**Customs**, in Brazil, children are arranged by their parents to have their ears pierced very early, but most parents in Denmark do not do this.

In terms of **temperature**, because Brazil is in South America, in winter, the temperature is not too low, around 13 – 18 °C, no snow in Brazil. So, people do not need to buy a lot of winter clothes to keep out the cold like Denmark living in northern Europe. Furthermore, I think people in Brazil tend to be more enthusiastic.

iMh What is your favourite food?

4

I think it is Japanese food but sometimes Italian food or hamburger.

It's hard to say because it depends on my mood.

Afternoon and Night.

iMh Describe how art is important to society.

Art is the materialization of subjectivity. I think life is inseparable from art, and without art life would be too boring.

iMh Does art help you in other areas of your life?

I believe it has always helped me, to find motivation, happiness.

iMh How do you develop your guitar skills?

I always study and practice.

Are your parents support you to work as a singer/artist?

iMh

Any objection at the beginning?

14

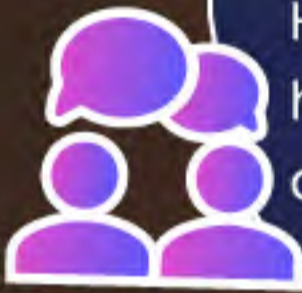

Unfortunately I am not able to say they supported me, they used to say it would be better for me to have another profession, they aren't completely wrong because in fact it's not easy, but I think if they supported me it would be a little bit easier.

Relationship of teammates in your band, any argument?

15

And how to treat and solve it?

# How To Make Your Skin

## Smooth and Hair-Free

By using a

# Magic Device?

Author: Maja

If there is one beauty and skincare issue that most women struggle to achieve, it is to have long-term smooth and silky skin. Nice, shiny skin on the legs and arms, without any hair, is one of the greatest feelings for women that care about their beauty and put this issue high up on the list on finding more perfect solutions.

The growth of hair is a natural cycle, and the beauty and skincare industries have advanced a lot in offering a vast array of different solutions that make hair removal more easily dealt with. While there are a lot of different permanent and semi-permanent treatments that might require a deeper and bigger budget, there are those solutions that are quick, easy, and now can achieve salon quality results at home.

# #MAGIC DEVICE

One magic device, for dealing with unwanted hair and delivering smooth and silky skin is the DermaRazor. This device is a revolutionary new invention that combines an electric razor with a dermaplane so that hair, stubble and dead skin cells can all be removed at once - in a single stroke. The electric razor and dermaplane are both 18K gold plated to avoid any skin irritation.

## Exfoliate

There is also an additional benefit - exfoliation helps to prevent the blockage of hair follicles and the resultant ingrown hairs this can cause, so regular Dermarazor use provides long term improvements for the overall look and feel of the skin.

## Fabulous Design

DermaRazor is truly a magic device. It comes in a fabulous design, that if you think deeper, resembles the silhouette of women. It is designed so that it can easily fit into the hand and slide onto the skin.

## Portable

It is light, portable, and can be your true companion wherever you go.

## Not only a razor

As the name of the device suggests itself, this is not only a razor.

The functionality of the device comes as a mixture of razor and dermaplane. The combination of these two properties safely and efficiently deals with the grown hair and prevents the appearance of the ingrown hair by exfoliating the skin which removes the stubble.

## Simple to Use

After using the DermaRazor, the skin instantly feels **new and fresh**. The process of using it is very simple - just focus on the area where you want the hair removed and see for yourself as the magic happens.

What is an additional benefit are the dermaplane extensions and combs in different sizes that come with the device.

## CLEAN AND

## FRESH SKIN -

*the makeup look that never goes out of style*

### TRENDS

Makeup and beauty trends are constantly changing. Women pay great attention to their beauty and makeup looks, trying to keep up with all the novelties and trends that the market introduces. Each season comes with a new set of products that are promoted as the most desired and "in".

However, one trend that never goes out of style is a clean and fresh look.

### No-Makeup Look

In the last few seasons great focus and accent has been placed on the 'no-makeup' look, which includes little use of makeup, and suggest keeping the skin clean, healthy, and fresh.

Radiance, moisture, and glow are the true pointers of a good skin care regimen and use the right products to deliver such an impeccable look.

All of that comes from imposing and following certain beauty routines. The nice look of healthy and nourished skin is something difficult to achieve.

To achieve perfect looking skin, without make up requires a lot of personal discipline. Including a regulated healthy diet, drinking lots of water, minimizing stress and getting enough exercise as well as sleep. In this hectic world, for most of us, it is difficult to continually maintain such self-discipline - and even if we can, there are other factors that can spoil our look - whether we use makeup or not - such as facial hair.

### PEACH FUZZ

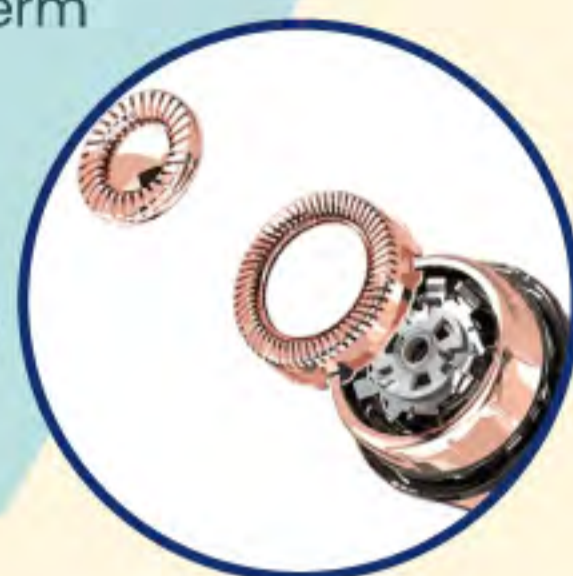

There are many reasons for the appearance of unwanted facial, whether it be peach fuzz, the effects of hormonal imbalance or natural ageing. The most common places where hair appears are the upper lips, brows area, chin, jawline, and neck.

This unwanted hair can truly be annoying, and it does require constant care to maintain the best outlook. Moreover, it can affect self-esteem and confidence, resulting in emotional and mental stress - which can become a viscous circle.

However, the beauty industry is highly creative and there are many available solutions available to help control unwanted facial hair. Starting from expensive salon treatments to chemical based creams and beauty appliances that are safe and convenient choices, unwanted hair does not have to be a bore. Especially if you have the right product by your side.

# Maintaining The Perfect Eyebrow Shape —

## How BUSY PROFESSIONAL WOMEN Can

## Save Time & Money

## Removing FACIAL HAIR

Author: Joanne Silatie

### Work-Life Balance

Between work and family, setting aside time to head into the salon for hair removal doesn't always fit into your schedule. However, there is a fast and easy way to maintain perfectly sculpted and groomed brows at home — along with other undesirable facial hair.

Tweezing stray brow and facial hair is effective, but it's painful. Even if you can withstand the discomfort, tweezing is time-consuming.

With the dual function iMusthav Brow and Facial Hair Remover removing unwanted hair is pain-free. You won't feel a thing!

### Precision Hair Removal

What makes the iMusthav Brow and Facial Hair Remover unique is that it has two tips.

- 1 The small tip looks similar to the tip of a pencil. Being ultra-thin, you can **remove stray brow hairs** without disrupting the perfect shape of your brows.
- 2 The second tip is also small, but has a wider surface area perfect for removing upper lip hair, sideburns, chin hair, or any other unwanted areas of **facial hair**.

Both tips contain an **LED light** to ensure you can see even the finest or lightest of stray hairs. If you have a lighted mirror use that too, but you'll be able to see clearly without one.

Finally, your new brow hair remover is **lightweight, cordless, and rechargeable**.

## Smooth And Clean

The 18 carat gold-plated blade to avoid triggering an allergic reaction.

## Hypoallergenic

Hypoallergenic means a product contains few allergy-producing substances known as allergens. There's no redness or irritation as with wax and threading, so it's ideal for even the most sensitive of skin.

## Tips

Use on a clean face, and follow up with a toner, serum, moisturizer, and makeup. Sanitize and sweep away the hairs you trim away in-between use. This only takes another minute or so.

## Remove Facial Hair In Minutes!

Whether it's the end of a long day or you notice a few stray hairs before applying your morning makeup, you can clean up and remove stray facial hairs in a matter of minutes! So, not only will you have a precise, pain-free, and smooth finish — but it's not something you'll have to schedule into your already busy day.

## Additional Tips

## For Maintaining The Perfect Brow Shape

Looking polished and professional is all about the details. Now that you can maintain your brow shape at home with ease, consider these other brow-defining tips.

- Refine or update your brow shape as needed with a trip to the salon every 3 or 4 months.
- Invest in an at-home brow kit, including a brow brush and tiny scissors to trim curly or unruly hairs that grow beyond your brow line.
- If your brows are thin or light in color, fill them in with an eyebrow pencil, brow gel, or brow contour kit.
- Eliminate the need for brow makeup by having your brows (and lashes) tinted every 6 weeks to make them darker and more defined.
