The Ultimate Guide to Body Hair Removal

Author: Vai Michael

The Beauty Room is one of our magazine's columns where we interview contemporary beauty lover from around the world and let us know a little bit about some interesting people.

Laura Dirtu's Interview

Laura Dirtu, who is a famous Tik Toker. Recently, she had a short video that hit over 8.5M views. She loves sports and she was studying Sports Science at university. She is also a beauty lover.

Laura Dirtu

iMh Today, we are glad to interview Laura Dirtu, she will share her personal beauty tips too! Do you want to know more about her? Let's read the following interview!

iMh Where are you from?

I was born in Republic of Moldova and raised in Italy and I moved to United Kingdom when I was 22 (2018).

iMh Why did your you / family move to United Kingdom?

The country has a high quality education system, relatively low crime rate and plenty of job opportunities all over.

iMh What you miss the most about Italy?

FOOD and Sea.

I miss to be able to go to the beach to sunbathe and swim 8 month a year.

iMh What is your favourite food?

Bread. Food for me is memory and emotions.

And one of my most vivid memory of my childhood is the smell of the freshly baked bread at my grandma's house.

I mean bread with jam, butter, focaccia, pizza, pastries...

iMh Tell me about your favorite hobby?

Videography and traveling.

I remember when I bought my first DSLR camera I was the happiest in the world (over 10 years ago).

But before that I was filming with my phone. But since videography became my full time job, my new hobby is traveling.

iMh Why did you like sport and study sport in university?

I was active in school (sprints, high jump, dance)

and I was always curious how the healthy human body works during exercise,

and how sport and physical activity promote health physically, mentally and socially.

iMh Does sport help you in other areas of your life?

Yes! Sport helps my mental health and also serves as a powerful tool for selfdiscipline.

iMh Can you give some advice about physical exercise to beginners?

Stay consistent and show up for yourself.

One year from now you will wish you had started today.

iMh After Covid-19, more and more people are working from home. Is there any exercise you suggest they can do at home?

Absolutely! I'll share a 5 min video to follow:

5 MIN STRECHING

<https://www.youtube.com/watch?v=2xUGG3IG0fM>

Scan and watch the 5 minutes video!

or click here

Follow me to do physical exercise now!

iMh

Who are your biggest influences for your life?

10

My mother! She's the strongest woman I know.

iMh

Where do you find inspiration for your Tik Tok video?

I was overthinking for many years (I'm a perfectionist)

and at some point I just started posting without overthinking and over editing the video and people liked it.

11

SOMETIMES YOU JUST HAVE TO DO IT!

iMh

12

When is your favorite time of day to create?

I prefer to create from 9am to 3pm since I prefer the natural lighting.

iMh

What motivates you to create Tik Tok Video?

13

I like the idea of documenting my life.

iMh How do you develop your business? **14**

For those who don't know I have a production business (Laura D Studio).

I'm slowly expanding my team and I'm reinvesting in marketing and new equipment.

iMh As an TVC model who needs to be presentable, so how do you keep your looks nice? **15**

Recently, I was using iMusthav Dual Function Brow and Facial Hair Remover.

It's compact, painless and has helped me so many times.

iMh What do you think the product Dual Function Brow and Facial Hair Remover?

16 One of the best beauty device in my collection. Love it!

HOW TO PREVENT & MINIMIZE THE "TT" ON YOUR FOREHEAD?

 iMusthav Editor

WHAT IS TT?

WRINKLES ON THE FOREHEAD

TT means "train track". Wrinkles on the forehead are known as the "train track". When the facial skin ages, the collagen and elastic fibers at the bottom of the muscle will gradually lose, causing the skin to lose its support and become sagging and sagging.

TT makes you look old, do you want TT on your forehead? Absolutely not, right? So, we need to prevent it and minimize them on your forehead, follow me!

CAUSES OF FOREHEAD WRINKLES

First of all, we need to understand what the causes of forehead wrinkles are.

There are many reasons for the formation of forehead wrinkles, including:

1. Too much sugar in the daily diet can accelerate the aging of the skin;
2. The skin is dehydrated for a long time, which makes the metabolism slow;

3. UV damage causes the skin to photo-aging; Raising eyebrows, the dynamic forehead lines gradually turn into static forehead lines;

4. The muscle tension of the upper eyelid decreases, requiring the strength of the forehead muscle to open the eyes;

5. The amount of melanin in the skin decreases, and the ability to protect the skin is insufficient, not drinking enough water, etc.

OK, then How to get rid of the wrinkles on your forehead?

DAILY PRECAUTIONS FOR REMOVING FOREHEAD WRINKLE

We need to take daily precautions for removing forehead wrinkles:

1. Use the correct way to wash your face, do not frown or rub your face too much;
2. The correct way to wash your hair, do not to bend over to wash your hair;
3. Do not keep your eyes wide open and make other exaggerations facial movements;
4. Reduce the amount of friction on the forehead with hands;
5. Moisturize the skin in the morning and evening to delay skin aging;

6. Use vitamin C and anti-aging ingredients in skin care products;

7. Maintain good eating habits, do not smoke or drink, less fried food, more vegetables, and quit sugar;

8. Supplement more collagen-containing foods to replenish collagen in the skin;

9. Don't stay up late, get enough sleep and exercise.

FOREHEAD MASSAGE METHODS TO REMOVE WRINKLES

Two forehead massage methods to remove wrinkles.

PRESS THE FOREHEAD VERTICALLY

HOW TO DO

You can apply enough skin care products on your hands first, then place your elbows on the table, and gently place all four fingers except the thumb on the eyebrows. Then use your elbows to support your hands and press your head down until your fingers touch your hairline. Then the hands leave the forehead, return to the eyebrows, and repeat the previous action.

TIPS

When performing this massage action, remember it is in one direction only, only up, NOT moving up and down, otherwise it will increase the chance of the formation of forehead wrinkles.

"W" SHAPED FOREHEAD MASSAGE

HOW TO DO

Use the joint part of the index finger to start at the position near the temple and the end of the eyebrow, and massage the forehead back and forth in a "W" manner in the other direction.

TIPS

When doing this action, remember to use it with skin care products, and do not use excessive force, otherwise it will have the opposite effect and accelerate the appearance of forehead wrinkles.

HOW TO SELECT SUITABLE *Cosmetics* IN 2023

 **Zaryab Akram Khan**

Beautiful, flawless, and healthy skin is always in. The beauty and cosmetic industry's decline during the pandemic speculated that it would continue to go down. Still, just after two years, the cosmetic industry accounts for millions of jobs.

The demand for cosmetic products increased due to improved public awareness of wellness and self-care. You may have seen a shift in the beauty market toward organic and natural products. Sustainability, simplicity, and personalization is gaining momentum in skincare and beauty. We hear you saying, "How to Select Suitable Cosmetics in 2023." Here are some suggestions we are providing based on the latest trends.

Waterless Products

Waterless products are fantastic innovations of the present times. Their formulas contain botanical oils instead of water. The removal of water makes them the more potent and effective choice. In addition, they do not contain preservatives and artificial ingredients. You can select waterless skin, hair, and body care products. One of the critical reasons that make them suitable for 2023 is they help reduce water consumption, and it is our responsibility to save water.

Recyclable Packaging

Green, sustainable, and refillable packaging is gaining so much popularity, and it will be a great choice to select for 2023. Glass, plastic, metal tubes, refill containers, and compostable packaging is becoming more common. The idea of simplicity, ingredients, and marketing messages is impressive. So, if you are optimistic and believe wholeheartedly in positive action, select the cosmetics with recyclable packaging for 2023.

Microbiome Skincare

Prebiotics, postbiotics, and probiotics have been known for years, but the idea of considering them in skincare is not so old. The cosmetics that are enriched in these components make the skin healthy and protected.

Trillions of microbes are present on the skin surface. When the stability between beneficial and harmful bacteria disturbs, it damages the skin. The skincare products with prebiotics, postbiotics, and probiotics maintain homeostasis. They either remove the harmful bacteria or adds helpful bacteria to improve the skin condition. So they are one of the suitable cosmetics to choose from in 2023.

Focus on Ingredients

Do not get tempted by the fancy packaging of cosmetic products. What matters is their ingredients list. So first, ensure the product you are purchasing has mentioned all of its components. Then, do a little research on each of the ingredients. This will help you decide on the right skincare for your skin type. This is the trend we must follow all in the year 2023.

Super Basic Skincare

Another trend that is taking the spotlight is super basic skincare. You do not need tons of cosmetic products to look beautiful and radiant. The basic steps include cleansing, moisturizing, and protection against environmental factors. Choose products with simple ingredients that fulfill the basic needs of your skin. The real comfort is in selecting simple products. Value quality instead of quantity in the year 2023.

Use of Electrolytes in Skincare

Electrolytes are not something reserved for athletes. The cosmetic industry is continuously bringing revolutionary changes and value to our skin. The electrolytes are undoubtedly great skincare ingredients. Certain minerals, including magnesium, calcium, potassium, and sodium, are suitable electrolytes to consider in skincare products. All of these support the moisture balance of the skin and prevent dryness. You can select creams, serums, or sprays with electrolytes. For instance, magnesium is good for acne-prone skin, and potassium hydrates the skin and promotes the formation of new skin cells. So it is a great idea to select electrolyte skincare in 2023.

Fermented Cosmetic Products

According to biology, fermentation is a process by which organic material is converted into something more potent with the help of microorganisms. Fermented cosmetic products have been gaining popularity since the year 2018. They act as active ingredient boosters with a higher concentration of nutrients and antioxidants. Fermented skincare products are great for reducing aging signs. You can get them to step up your skincare game in 2023.

Complete Transparency of Cosmetic Products

Always choose the cosmetic brands that show complete transparency, give full access to the origin of the product manufacturing process, and make the scientific information clear and easy to understand. It is crucial to saving the environment, your body, and your skin against harmful toxins.

Easy Breezy Makeup

During the last two years of the covid, we learned less is more. We survived without beauty products like lipsticks and eyeliner. Instead, the cosmetic industry emphasizes healthy and glowing skin. It has now become a trend to look natural and skip unnecessary cosmetic products. So it is all about focusing on the quality of your skin and relying on as fewer beauty products as possible.

The Glossy Hair

Healthy gorgeous hair is a constant trend. To create an ultimate glossy look, choose some haircare products with natural ingredients that do not damage your hair while leaving an instant shine. The various haircare brands focus on adding organic oils to hair serums or styling creams. They are ideal options to try in 2023.

Brow Lifting

Your eyebrows play a significant role in the expression and impact of your face. Many of us spend a considerable amount of money on brow-enhancing cosmetic products. Unfortunately, getting them a perfect arch is another difficult task to perform. But recently, brow lifting has resolved the problem. It is turning more and more popular with each passing day. This treatment brings brows in the ideal shape using chemical solutions and then fixes them with a water-soluble adhesive. So it is a permanent wave for your eyebrows, making it a perfect treatment to try in 2023.

Does Body Hair Grow Back

Thicker, Thinner, Darker, or Coarser

With an Electric Hair Remover?

 **Joanne Silatie**

While you may love the look and feel of silky-smooth skin from head to toe, you may worry about how your hair grows back. The top concerns most women have are if their body hair will grow back thicker, thinner, coarser, darker, or faster. Here's what you need to know.

Thicker?

Does Body Hair Grow Back Thicker After You Shave?

Contrary to popular belief, no! That being said, it may appear to be thicker when it grows back. Body hair naturally tapers at the end, kind of like how the tip of a pin is tapered. So, as your hair grows in, you only see the pointy tip. The tip stands up straighter, which makes your hair appear to be thicker.

As your hair grows over the next couple of weeks, the tapered tip will eventually lay flatter against your skin.

Thicker or not?

Darker?

Does Body Hair Grow Back Darker After You Shave?

Technically no, but it will appear to be darker when it first grows in. The tapered tip of your body hair reflects light differently when it's short. It's the same concept as the saying "the grass always looks greener on the other side." Due to the way sunlight reflects on blades of grass, it does look greener.

The same is true of your new growth body hair. If you are letting your body hair grow back, hang in there—as it will eventually look like your natural hair color.

Faster?

Does Hair Grow Back Faster the More Often You Shave?

This is another common misconception, as shaving doesn't accelerate hair growth. However, your shaving method or shaving instrument may cause your hair to grow back faster.

If you shave with a dull razor blade or if you don't regularly exfoliate your body, your shave won't be close to your skin. When your shave isn't as close, your hair will grow back faster.

This is one of many reasons to consider the DermaRazor. It is a multi-purpose beauty device that provides both dermaplaning and shaving for an ultra-close shave.

DermaRazor?

Faster or not?

Thinner?

- 1 Use the razor guards to trim your bikini area or thick leg hair before you shave.
- 2 Use the razor for a close shave of short or new growth body hair.
- 3 Remove peach fuzz and new growth with the dermaplane attachment.
- 4 Use the sensitive skin attachment for your armpits, bikini area, and bikini line edges.

Will Your Hair Grow Back Thinner After You Shave?

Many hair removal methods lead you to believe that their product or beauty device will make your hair grow back slower. However, the rate at which your hair grows, is the rate at which your hair grows.

That being said, if you use a shaving method that damages your hair follicles your hair may grow back thinner. This is only because the hair follicle is damaged, not because the hair removal method is more effective.

So, while it sounds enticing to remove your hair from the root, it's often more painful—and it increases your risk of lasting damage.

I don't know about you, but I prefer pain-free hair removal!

Coarser?

Is Body Hair Coarser When It Grows Back?

It certainly feels like it! While it's not technically coarser, when all you have is the tapered points, your hair will feel coarse and prickly. The hair must have a tapered tip to successfully pass through the hair follicle.

This is why your armpit hair always feels prickly and why your bikini line can be super itchy when it grows back in.

Hang in there, as it will feel less prickly and itchy within 10 to 14 days.

Or remove your hair for immediate relief.

Why Switch From a Razor to Electric Hair Removal?

The newest generation of multi-blade razors is impressive, but they remain limited.

Shaving your legs, underarms, bikini line, and arm hair is time-consuming. And you will go through interchangeable blades rapidly.

Waxing and threading are effective, but the cost adds up. And, as a busy modern woman, you may not always have the time in your schedule to head to the salon for professional hair removal.

Upgrading to the DermaRazor delivers a variety of benefits:

- 1 Shave at home any time it fits into your schedule.
- 2 Shave in the shower or while your skin is dry, just don't submerge.
- 3 Unlike disposable razors, the electric razor head lasts multiple years.
- 4 There is an LED light to ensure you can see where you are shaving.
- 5 The reversible head and ergonomic design ensure easy shaving.
- 6 The hypoallergenic razor is 18K gold plated to ensure cleanliness and minimize irritation for those with sensitive skin.

What is Dermaplaning?

Dermaplaning is a gentle and non-invasive method of deep exfoliation. It is not the same thing as microdermabrasion, which is invasive.

Although your skin sheds naturally, body lotion, bronzers, oil, makeup, and other skincare products you use can slow the rate of natural exfoliation.

You can use granular or chemical exfoliators to slough away dead skin, but dermaplaning removes the entire first layer of skin.

Painless!

Don't worry, as it's not painful! In fact, dermatologists agree dermaplaning is safe for even sensitive skin.

Just be sure to dermaplane around any areas that you have:

- CUTs
- WOUNDS
- SUNBURN
- ECZEMA
- ROSACEA
- BREAKOUTS

- SCRATCHES
- RASH
- BLEMISHES
- PSORIASIS
- ACNE
- ANY SKIN IRRITATION

LOTION

Not only will dermaplaning make your skin instantly softer and smoother, but with regular use, it will fade scars, even out texture, and rejuvenate your skin. Regular exfoliation also supports your skin in its natural anti-aging process.

Select a body lotion that is naturally derived and formulated with skin-healthy antioxidants. Always apply lotion after you:

Don't Forget to Nourish and Moisturize!

Shaving and exfoliation are essential for soft and silky skin, but you must also nourish and moisturize your skin.

Shower

Take a bath

Steam/sauna

Swim

Shave

Dermaplane

8oz

Also, drink at least 8 ounces of water or herbal tea per day and eat a diet rich in antioxidants and Omega-fatty acids.

Check back to the iMustHav blog soon for more skin and beauty tips!

THE ULTIMATE GUIDE TO BODY HAIR REMOVAL

 **Vai Michael**

The practice of removing body hair is very popular, especially among females. Many people prefer to get rid of body hair due to medical requirements, hygiene, and even for beauty and fashion purposes. But among all the reasons, the most obvious cause of body hair removal practice is beauty and a lot of people have to go through a lot of pain and irritation on the skin because of that.

Well, everyone is beautiful with or without body hair but if, one wants body hair removal and is a complete beginner, and also, needs to know the safest and the best option for the body then reading this article will help you to know about all the available options, its pros and cons which will assist you to choose the most suitable and pain less choice for your body.

TECHNIQUES TO REMOVE BODY HAIR

Here are the various types of methods by which one can remove body hair along with the advantages and disadvantages.

Waxing

Waxing is a widely used hair removal practice, someone who never tried waxing might also be familiar with it.

To do body hair removal, hot wax is applied on the part of the skin where the hair is wanted to be removed; the hot wax will stick to the hair. Once the wax is cooled down and forms a rubbery texture, it is pulled off by a professional using a wax strip.

Your hair will be pulled off with roots, giving a nice smooth texture to the skin.

Waxing the area with too long hair can cause more pain hence many hair removal experts recommend first trimming the hair before going for a wax session or sometimes your professional will do it for you.

Pros And Cons of Waxing

The pros are that waxing can be done anywhere, either, at your home or any of your favorite salons. Waxing also removes tanning from the skin.

Remove Tanning

The cons of waxing are that it is painful and can cause irritation, and redness on the skin. People with sensitive skin may not find it suitable for hair removal.

Shaving

The option of shaving is affordable as well as painless and one can do it on their own. For this, you will need good shaving cream and a razor. Alternatively, you can use a trimmer to trim the unwanted hair. A trimmer is also a great tool for hair removal in genital areas.

Initially, many people get cuts by the traditional razor so if you want to avoid cuts by the traditional razors and want something much faster and safer, then you can try a premium electric razor like MV500 DermaRazor by iMusthav. This electric razor not only helps to remove unwanted body hair but also removes dead skin cells, thus, leaving you with smooth and silky skin.

Pros And Cons of Shaving

The pros of shaving are that it is time efficient, affordable, easy to do, and one can do it anywhere one wants.

No cons so far. Shaving or trimming is one of the safest hair removal methods recommended by dermatologists.

Body Hair Removal By Laser

If someone is willing to get rid of body hair permanently then laser body hair removal sessions are the perfect option.

Although this process is a permanent solution not many people can get it done due to its expensive cost.

During the procedure, the laser beam is targeted at the hair follicles and burns them, therefore, the growth of hair becomes slow and thinner.

The good point is, there are no major side effects of this treatment but it's always better to get advice from your dermatologists.

Pros And Cons of Laser Hair Removal

The biggest advantage is that it is a permanent solution to get rid of your unwanted body hair.

The cons are that it is a very expensive treatment and can be painful when it's done.

Hair Removal Creams

The market is full of several brands selling hair removal creams and one can experience smooth body hair removal with them without experiencing pain.

Using the hair removal cream is so simple, you only have to apply on the hairy area, wait for a few minutes or recommended time, and wash it.

Pros And Cons of Hair Removal Creams

The pros of hair removal creams are - they are affordable, easily available, and easy to use.

The major con of hair removal creams can be the risk of irritation to sensitive skin. The procedure can be quite messy, which makes it time-consuming too.

Cold Waxing Strips

Cold wax strips are the newest way in the market to get rid of the unwanted body in your comfort zone.

You simply have to take a cold wax strip, rub it between your palms, take off the seal, apply it to the skin, rub it a bit on the skin, and pull it off.

The cold wax strip is like an instant waxing solution and a great alternative to traditional waxing procedures.

Pros And Cons of Cold or Instant Waxing Strips

The pros of cold waxing strips are affordability, instant solution, and ease to carry and use.

The cons are, one cannot see very successful results, it's painful and this product is not easily available in the stores.

What's the Best Hair Removal Method?

For those who wanted to get rid of their unwanted body hair, there are multiple ways to choose from. One can choose according to the type of skin and the tolerance level.

If you are still confused and want the best body hair removal method, the perfect choice is to invest in a high-quality electric razor.

Imusthav electric razor- MV500 DermaRazor is designed to be gentle on the skin.

GENTLE ON SKIN

1 With a reversible head, it offers you the flexibility of use, either for shaving or edging. Use it on your hands, legs, bikini area, or anywhere you want for silky smooth skin.

2 You will love the LED Illumination, you can ensure proper stray hair removal.

3 Your skin is 100% protected from allergies and cuts- thanks to the hypoallergenic blades.

4 You can enjoy a comfortable and seamless shaving experience as it can work smoothly for up to 45 minutes on a full charge.

5 Lastly, cleaning this hair removal too is a breeze. It comes with a cleaning brush for convenient and mess-free cleaning.

If you liked this hair removal guide and our tool suggestion, let us know in the comments.

3 POPULAR YOUTUBER IN THE WORLD 2022

WHAT WE CAN LEARN FROM THEM?

Do you know who has the most Subscribers on YouTube in 2022? Would you like to be a popular YouTube too? Ok, let us tell you who they are and what can we learn from them now!

WHINDERSSONNUNES

OVER
43.9M
SUBSCRIBERS

Winderson Nunes Batista was born in Brazil, he worked hard for eight years to become one of the most successful solo YouTubers, his channel whinderssonnunes became the most subscribed channel in Brazil in 2018.

He currently has over 43.9 million subscribers on YouTube and has uploaded 425 videos with over 3 billion views. He also has a music channel named after him. In addition to his musical and comedic spoofs, he is also known for his film reviews.

What can we learn from Him?

- 1 He keeps improving the quality of content creation.
- 2 He is good at getting people to engage in his videos.
- 3 He also uses his main channel to redirect his traffic to his other channels.

HOLASOYGERMAN

OVER
43.47M
SUBSCRIBERS

Germán Garmendia is also known for his popular YouTube channels HolaSoyGerman and JuegaGerman. He indeed has his own band named Ancud, under which he runs a YouTube channel and has over 1.94 million subscribers.

He has been into music from a veritably youthful age and started as YouTuber in 2006, where he created a music channel called Zudex. Being a Chilean YouTuber, he has a combined subscriber base of 80 million across all his channels. He's also one of the top Spanish-speaking YouTubers on the platform. He originally came to the spotlight on YouTube with his primary comedy channel HolaSoyGerman which he created in 2011.

What can we learn from Him?

- 1** He has impressed a vast followership base in Europe and the South American region with his gift.
- 2** He's veritably active on his JuegaGerman channel, where he uploads colorful videotape content.
- 3** He has created a perfect balance in his content creation as he manages all his channels and aims to grow them together. He also diverts his business from the main channel to the other channels to get a serious boost in terms of figures and engagements.

PEWDIEPIE

OVER
111M
SUBSCRIBERS

Felix Kjellberg has the most subscribers on YouTube up to 2022. You might know his channel with the name of PewDiePie. He started as YouTuber in 2010. Presently, he has 110 million subscribers and has a spellbinding 27 billion views in total on the platform. It took him over 4300 vids over 11 times to reach this position on YouTube.

He's from Sweden, has created a lot of content in the gaming assiduity, and has a broad subscriber base from people across the globe speaking different languages. One reason for his broad subscriber base is that his content is available in multiple other languages.

He has also worked hard on his YouTube marketing juggernauts and all the minor factors that people generally ignore. You can see PewDiePie uniting with other YouTubers, which helps produce a healthy terrain in the community and boost both parties involved in the collaboration.

What can we learn from Him?

- 1 One content is available in multiple other languages.
- 2 Coperation with other popular YouTubers.
